Vol. 143 Nos. 1–2 — 1 March 1993

Special Issue: Modelling flow and transport in the unsaturated zone: scale problems and spatial variability

Introduction 1
A conceptual–stochastic model of unsaturated flow in heterogeneous soils
E.-M. Kiefer 3
Dispersion parameters for undisturbed partially saturated soil
K.J. Beven, D.E. Henderson and A.D. Reeves 19
Stochastic modelling of solute flux in the unsaturated zone at the field scale
G. Destouni 45
One-dimensional solute transport modelling in aggregated porous media
Part 1. Model description and numerical solution
F. Lafolie and Ch. Hayot 63
One-dimensional solute transport modelling in aggregated porous media
Part 2. Effects of aggregate size distribution
Ch. Hayot and F. Lafolie 85
Estimating transport parameters at the grid scale: on the value of a single measurement
K.J. Beven 109
Is large-scale inverse modelling of unsaturated flow with areal average evaporation and surface soil moisture as estimated from remote sensing feasible?
R.A. Feddes, M. Menenti, P. Kabat and W.G.M. Bastiaanssen 125
Identification of the movement of water in unsaturated soils: the problem of identifiability of the model
S.L.J. Mous 153

Vol. 143 Nos. 3–4 — 15 March 1993

Research Papers

The interaction of two major old water bodies and its implication for the exploitation of groundwater in the multiple aquifer system of the central and northern Negev, Israel
J. Kronfeld, E. Rosenthal, G. Weinberger, A. Flexer and B. Berkowitz 169
Environmental tritium systematics of Baseflow in Piedmont Province watersheds, Georgia (USA)
S. Rose 191
Variable time intervals in deterministic hydrological models
D.A. Hughes 217
The chemical evolution of groundwater in a first-order catchment and the process of salt accumulation in the soil profile
R.B. Salama, P. Farrington, G.A. Bartle and G.D. Watson 233
Distribution of recharge and discharge areas in a first-order catchment as interpreted from water level patterns
R.B. Salama, P. Farrington, G.A. Bartle and G.D. Watson 259
Evaluation of Philip's infiltration equation for cultivated upland terraces in Indonesia
T. Sutikto and K. Chikamori 279
Groundwater flow regime within the Gambier Embayment of the Otway Basin, Australia: evidence from hydraulics and hydrochemistry
A.J. Love, A.L. Herczeg, D. Armstrong, M.F. Stadter and E. Mazor 297
Pattern of flood peak increase in urbanizing basins with constant and variable slopes
T.S.W. Wong and C.-N. Chen 339
Long-term variability in the water balances of the Plynlimon catchments
J.A. Hudson and K. Gilman 355

Near-surface air temperature as substitute for skin temperature in regional surface flux estimation
R.J. Qualls, W. Brutsaert and W.P. Kustas 381
The occurrence and geochemistry of fluoride in some natural waters of Kenya
S.J. Gaciri and T.C. Davies 395
Linkage between the occurrence of daily atmospheric circulation patterns and floods: an Arizona case study
L. Duckstein, A. Bárdossy and I. Bogárdi 413
Estimation of hydrological parameters at ungauged catchments
D.H. Burn and D.B. Boorman 429
Transport of calcium, magnesium and SO_4 in the Floridan aquifer, west-central Florida: implications to cementation rates
I.C. Jones, H.L. Vacher and D.A. Budd 455
Asymptotic variance of flood quantile in log Pearson Type III distribution with historical information
P.J. Pilon and K. Adamowski 481

Discussions
Palaeohydrogeological reconstructions of the North Lincolnshire Chalk, UK, for the last 140 000 years — comment
P.L. Younger 505
Palaeohydrogeological reconstructions of the North Lincolnshire Chalk, UK, for the last 140 000 years — reply
K.M. Hiscock and J.W. Lloyd 511
Evaporation from a tropical lake: comparison of theory with direct measurements — comment
F. Bultot 513
